

DECEMBER 1993

"USE AS A GUIDE ONLY"

NOT VALID AS IMPORT PERMIT

Annex to Import Permit Form K 2

Sir/Madam

As you will understand from the main letter, the Norwegian Ministry of Agriculture has consented to the importation of your cat(s) into Norway.

For technical reasons, the import permit has to be held in the Norwegian language. In order to solve linguistic difficulties, the requirements of the import permit are stated below in English.

1. A Certificate of Health and Origin for exportation of cat(s) to Norway is enclosed with the import permit. The animal(s) will not be permitted to enter Norway if any of the information requested in the Certificate is lacking.
2. The importer must, well in advance, make a reservation for the cat(s) at the State Animal Quarantine Station: Statens karantenestasjon for dyr, Verkseier Furulundsvei 44, 0668 Oslo 6, tlf. 2 30 05 06.
3. The cat(s) shall be transported directly to Oslo without getting in contact with other animals.
4. The cat(s) shall on arrival be examined by the Veterinary Officer concerned (Statens karateneveterinaer i Oslo). The importer must, well in advance, inform the Veterinary Officer of the time and place of arrival of the cat(s) (tlf. 2 30 05 06).

If any of the requirements stated above are not complied with, the cat(s) will be refused to enter the country.

5. The cat(s) has to be quarantined for 4 months at the State Animal Quarantine Station. If contagious disease is diagnosed or suspected in that animal, the Veterinary Authorities may take measures to combat the disease, which may include destruction of the animal without compensation to the owner.

6. For the first 2 - two - months after termination of the quarantine, the cat(s) shall not in any way be allowed contact with other animals. If it shows any signs of disease during this period, a veterinary surgeon must be called upon without delay. In addition, the cat(s) must not be allowed:

- a. onto a road or into any public area without being kept on a leash,
- b. to be sold or given away,
- c. to be kept in kennels.

7. The cat(s) must be older than 6 months and not pregnant.

The importer shall defray all expenses connected with the importation.

The import permit is valid until the date stated in the permit, and may at any time be revoked if the Veterinary Authorities consider this necessary.

The import permit and the Certificate of Health and Origin shall be presented to the Customs Authorities on arrival in Norway.

ANNEX TO K2

CERTIFICATE OF ORIGIN AND HEALTH FOR EXPORT OF CAT TO NORWAY

This certificate must be attached to import permit reg. no. _____ issued by the Ministry of Agriculture, P.O. Box 8007, Dep., Oslo 1, Norway. The animal will not be permitted to enter Norway if any of the information requested in this certificate is lacking. Further requirements are stated in the import permit.

I. Origin of the Animal

a. Country of export: United States

b. Name and address of the exporter: _____

Present address: _____

II. Destination of the Animal

a. Name and address of the importer: _____

b. Means of transport: _____

c. Port of entry: _____

III. Identification of the Animal

Name: _____

Sex: _____

Breed: _____

Age: _____

Color: _____

Coat: _____

Pedigree no.: _____

Issued by: _____

Further description: _____

IV. Health Information

I, the undersigned veterinary surgeon, certify that the animal described above meets the following requirements:

1. On _____ I examined the said animal and found no signs or symptoms of infectious or contagious disease.
2.
 - a. During the last 6 months before export to Norway, but no later than 14 days before shipping, the cat was vaccinated against feline panleucopenia and feline rhinotracheitis, by basic immunization and booster vaccination, in accordance with recommendations from the vaccine producer.
 - b. As far as can be ascertained, the cat has not been vaccinated against rabies during the last 30 days.

All vaccination certificates must be attached.
